Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue,

Rockville, MD 20852. The first page of any filing should include docket number P-2232-828.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. Description of Request: The applicant requests a temporary variance of its reservoir

elevation requirement at the Wateree development. The applicant intends to maintain the water surface between 6 and 7 feet below the full pool elevation of 100 feet local datum for 11 to 16 months beginning in the third quarter of 2022. This differs from the normal target elevation which is 3 feet below full pool (97 feet local datum) from March through November and 5 to 5.5 feet below full pool (95 to 94.5 feet local datum) at all other times, and compares to the normal minimum elevation which is 6 feet below full pool (94 feet local datum) from March through October, and 7 feet below full pool (93 feet local datum) the remainder of the year. The applicant states the low reservoir elevation would allow it to install pneumatic crest gates on the Wateree dam.
